SSE Tech Stack

Service	Tool	Function	Pretecht Managed Services	Cybersecurity As A Service (CAAS)	CAAS Select Co-Managed Services
Basic Cybersecurity	Back-Up and Disaster Recovery	Delivers multi-day, onsite backup and disaster recovery solution	•	•	•
	Anti-Virus	Provides real time behavior based protection from malware	•	•	•
	Patch Management	Deploys and tracks critical updates	•	•	•
	Email Phishing/Security Awareness Training	Ensures users are trained to identify threats	•	•	•
	Firewall	Detects and blocks sophisticated attacks using third generation technoloy	•	•	•
	Virtual Private Network	Secures remote access for offsite employees	•	•	•
	Spam Protection	Reduces high-risk email traffic	•	•	•
	AD Group Policy/Security Policies	Deploys role based security settings	•	•	•
	Network Access Control	Prevents unauthorized users/devices from accessing network		•	•
Advanced Cybersecurity	Multi-Factor Authentication (MFA)	Requires users to provide more than just a password to access network account	0	•	•
	Disk Encryption	Prevents unauthorized access to data in the event equipment is lost	0	•	•
	Change Management	Monitors and documents system configurations	0	•	•
	Network Diagram	Provides graphical representation of network infrastructure	0	•	
	Intrusion Detection /Prevention System (IDS/IPS)	Scans network traffic for malicious activities and known attack patterns		•	•
	Mobile Device Management (MDM)	Manages mobile devices accessing business information		•	•
	Vulnerability Management (VM)	Scans and reports on security vulnerabilities		•	•
	System and Information Event Management (SIEM)	Aggregates and analyzes activity across IT infrastructure		•	•
	Web Filtering	Restricts access to vetted websites		•	•
	Session Management	Tracks, monitors and secures multiple access requests from a single user or entity		•	•
	Secure Cloud File Sharing and Encrypted Email	Protects sensitive information and email encyrption		•	•
	Advanced AD Group Policy Objects/Intune Security Policies	Deploys additional role based security settings		•	•
	Governance, Risk and Compliance Platform (GRC)	Documents cybersecurity policies and procedures/compliance			•
© Productivity	M365		0	•	•
Collaboration	Sharepoint		0	•	•
	Teams		0	0	0
Storage	OneDrive		0	•	0
A Management	Remote Monitoring/Access	Monitors and manages equipment, servers and networks	•	•	
	Ticketing System	Manages analysis of user-related issues	•	•	
	Client Database	IT documentation platform	•	•	
	Reporting	Provides custom report generating tool	•	•
